

Moment Plastic Fast Spacer

Introduction

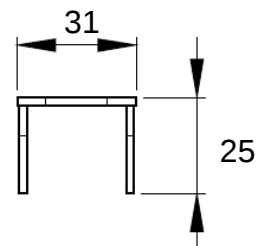

Moment Plastic Fast Spacer is used as a continuous spacer to keep the reinforcement a set distance from the formwork surface during construction in civil and commercial projects.

Fast and easy installation for precast panel

Dimension and Availability

Item	Width	Height	Length	Weight
MFS 25	31mm	25mm	1000mm	90gram

Moment Concrete Spacer

Introduction

Moment Concrete Spacer support the rebar on the right place with the right cover. These blocks are important for the optimum adhesion of the poured concrete.

Key Benefit

- High compressive strength, no deformation in heat or cold
- Spacers remain in position during formwork erection
- Ideal for impermeable concrete, no hairline cracks between the spacer and the concrete

Dimension and Availability

Item	Strength
Concrete Spacer 35	35 MPa
